

## **Fine Arts**

### **Sculpture**

Using a variety of materials such as tape, wire, felt roving, soapstone and paper, you will create several 3-D projects throughout the term. Expand your artistic skills and explore sculpture with various types of media.

### **Ceramics**

Love clay and getting messy? Well this is the class for you! You will learn about hand building techniques to create functional pottery and clay sculpture. Pinch, coil and slab methods will be explored as well as a variety of surface designs and decorating techniques. Experimenting with design and decoration techniques, you will create a series of unique clay pieces, functional, sculptural and a combination of both.

### **Model Mania**

From dinosaurs, to famous battles, to real movie sets - based on your own creative idea you will create a scale model on your chosen theme and time period.

### **One Act Comedies**

You will explore your personal creativity in the performance of scripted works. You will work on collective creations such as fractured fairy tales and other one-act comedies and perform them for younger audiences.

### **Introduction to Movie Making**

Do you think there is an Academy Award in your future? In this course you will get practical experience in acting; introductory script writing; use of film angles and shots; use of editing software including titles, transitions, music, sound effects, and word overlays. You could create a masterpiece!

### **Improvisation / Theatre Sports**

Hone your acting and dramatic talents by participating in drama exercises, games, and theatre sports type activities. Infusing creative flair into collaborative experiences will be fun and energizing!
